

## FREE Webinar: HIV Criminalization

**Description:** On December 7, 2017, the National Association of Criminal Defense Lawyers (NACDL) and the Center for HIV Law & Policy (CHLP), will co-host a webinar that will provide viewers with a medical primer about the current state of medicine with regard to HIV research and treatment. This primer will be coupled with a discussion on how to use medical research to develop defenses, present the court with mitigation, negotiate favorable pleas for clients, and litigate constitutional, evidentiary, and discovery issues. There will also be a section exploring the ethical issues that attorneys must grapple with when handling these cases.

**Date:** Thursday, December 7, 2017

**When:** 1:30 p.m. - 3:00 p.m. ET

**Cost:** FREE

**CLE credit:** Available for up to \*1.5 hours of CLE (general) where self-study credit authorized and approved.

**Register:** Click [here](#) to register.

**Note:** Confirmed registrants will receive a web link via email the morning of the event.

Registrants will be sent a link to the written CLE materials in advance of the webinar.

### Presenters

#### **Dr. David Wohl (Chapel Hill, NC)**

David Alain Wohl, MD is a Professor of Medicine in the Division of Infectious Diseases at the University of North Carolina (UNC). He is Site Leader of the UNC AIDS Clinical Trials Unit at Chapel Hill, Director of the North Carolina AIDS Education and Training Center (AETC) and Co-Directs HIV Services for the North Carolina state prison system. In 2014, he became Co-Director of the UNC-Duke-Clinical RM Ebola Response Consortium. Dr. Wohl's research aims to optimize the treatment of HIV including the identification of the most effective therapeutic approaches, and minimizing adverse effects of therapy. He also is active in investigations focused on HIV vulnerable populations, such as the incarcerated. He is active within the US AIDS Clinical Trials Group and HIV Prevention Trials Network and served two terms as a member of the US Department of Health and Human Services Antiretroviral Guidelines Panel. As part of the response to the 2013-16 Ebola outbreak in West Africa, Dr. Wohl led UNC clinical research efforts to test interventions for Ebola Virus Disease in Liberia and now directs a clinical cohort of Ebola survivors. In addition to his research and administrative activities, Dr. Wohl maintains a large HIV continuity clinic at UNC.

#### **Stephen Scarborough (Atlanta, GA)**

Stephen R. (Steve) Scarborough is a criminal defense attorney in Atlanta whose practice focuses on appellate and post-conviction matters in state and federal courts. A graduate of Emory University and Yale Law School, he has been a longtime public defender, a staff attorney at the Southern Regional Office of Lambda Legal, and an attorney in private practice representing persons accused in serious felony cases. He is interested in the intersection of the criminal law and public health and has represented several persons who were accused of HIV-related offenses or were subject to enhanced sentences on account of their status. He is part of a community effort to replace Georgia's outdated, HIV-specific reckless conduct statute, which imposes felony liability in a broad range of cases where transmission of HIV is nearly or totally impossible.
